### Project Description

The brief for this project was to spatially plan and design a refurbishment head office fit out for Jeppesen UK Limited, a Boeing Company. This incorporated open plan and individual managers offices, meeting rooms, boardroom, reception, staff cafeteria, flight planning and toilet facilities.

The completed fit-out integrated feature lighting and bespoke joinery items with specialist IT systems and audio visual equipment.

The idea behind the design was to create a light, interesting environment to invigorate those using it.
