Project Description

Single exclusive family dwelling to replace existing house on the site. The building has been designed to fit in with the local vernacular, incorporating an exposed oak frame, creating an exterior sympathetic to local historic architecture to house a thoroughly modern interior.

The scheme was purpose designed to take into account both current and future needs of the family, in particular adaptations to improve accessibility for their disabled daughter. The building follows a similar footprint to the existing, with the inclusion of a frontal carport to improve accessibility, and integrating passive solar design principles.

Client

Mr & Mrs Smith

No. of Dwellings

433sq. m

Construction Period

TBC

Project Team

Architect: etc Design Ltd
