Project Description

Following a fire that destroyed part of the school, a fast-track solution to replace the facilities was required by Derbyshire County Council.

In conjunction with Buchans Concrete Solutions, etc Architects completed the design for 4 new classrooms, a library, head teacher office, staff room, medical room and reception area utilising pre-cast insulated concrete wall panels. This modern method of construction greatly reduced the time and disruption on site.

The extension had to accommodate a difference in site levels albeit being a single storey building. The concrete panels were finished externally with a through coloured render and a pitched tiled roof was chosen, to be sympathetic to the surrounding buildings.

Client

Derbyshire County Council

Floor Area

602 sq. m

Construction Period

33 weeks

Value

£1 million

Project Team

etc Design Ltd architects, Client
Representatives, Buchans Concrete
Solutions, ASC Ltd.
