### Project Description

The purpose of the scheme was to replace the schools existing 1950s sports hall which was in a poor condition and provided inadequate facilities.

The new building is independent from existing school buildings and includes a full size four court sports hall with changing facilities, a fitness suite, and 3 classrooms. The design complies with Sport England Design guidelines and is accessible making it suitable for use by students, staff and the public.

To minimise disruption to the school during construction pre-cast concrete panels were used to reduce construction time and provide a robust solution with minimal maintenance

### Client

Derbyshire County Council

### Floor Area

1300sq. m

### Construction Period

38 weeks

### Value

£2 million approx

### Project Team

etc Design Ltd architects, Buchan Concrete Solutions, ASC structural engineers, Derbyshire County Council, School Representatives
